

LOOKING FORWARD TO 2025

The Foundation is excited about our goals for 2025. Our focus continues to be on funding research and providing outreach and educational opportunities for our local community. To accomplish our mission in 2025, we will be implementing two new programs -

-  Our community education program, which we are kicking off on February 2nd with our Placer Women's Retreat.
-  Students For A Cure, our outreach program for students in our community, offering educational and volunteer opportunities.

We will also be holding our Annual Hot Pink Fun Run on September 28th and continuing to Paint Placer Pink during the month of October!

In 2025 we will be doubling our research donation funding. The funds we raise will go towards funding these research opportunities -

-  Funding a breast cancer research fellow at UC Davis Comprehensive Cancer Center.
-  Providing funding for the UC Davis MammoVan for three community visits.
-  Providing two grants to cancer patients who are enrolled in a groundbreaking study researching less toxic cancer treatments.
